FRIDAY MORNING JANUARY [illegible] 1865

News of To Day

The late storm on the Atlantic coast was said to have been one of the most severe known for several years, and the fleet of Admiral Porter having successfully weathered it, was, at last accounts, in Beaufort harbor, having to all appearances abandoned the attack on the Wilmington forts for the present. The iron clads were at Charleston, supposed to be in readiness to assist Sherman in the reduction of that city which we may soon hear of his attempting. Hardee has by rumor, been brought to a stand, and his surrender is talked of but this is doubtless one of the unfortunate guesses of the wires, and not probable to occur while the whole State of Georgia is open for his retreat.

Canada is having trouble in the matter of a draft that is ordered to raise troops to man the frontier. The French resist, and a force is called out to enforce it.

The Richmond *Sentinel*, the organ of Davis, declares that it would willingly, if necessary, urge upon its readers such a measure as entering into a treaty with England and France, by which those nations shall recognize the Confederate States and guarantee their independence, conditioned upon the abolition of slavery, and thinks such a proposition would be favorably received and acted upon by those nations, and that it should be made to them.

It is supposed that the Rebel Congress has, in secret session, authorized either Gen Lee or President Davis to raise an army of 50 000 slaves, and arm them in the service of the Confederacy.

The 100-pound Parrott guns are about to be withdrawn from service not proving as serviceable as was expected of them.

The Pope is very polite to the rebellion thinks they talk very peaceable and will help them to peace if he can.

If Juarez has really issued letters of marque to American ships, and the Yankee cruisers undertake the work of running down French commerce, His Most Christian Majesty, the Emperor, will soon find how pleasant it is to hear of ships burned and taken at sea, when the business is carried on at his own expense.

Democracy.

Could Jackson ever have dreamed in those days when he laid the chief corner stone of a great and successful political party which for so long ruled the country by the power of able statesmanship and popular principles, that scarce a quarter of a century would pass before the name of Democracy, so honored then and since, would degenerate to become an ally of treason he would have hung his dejected head in sorrow. His Presidential career indicated what fate treason would have met at his hands. Nullification was only another name for secession, and "state rights" was a doctrine that he deemed untenable then, and crushed out by the force of his own iron will.

So it is to day that Democracy which once rallied the people in irresistible strength to the support of popular measures, which called the popular mind by watchwords that spoke to every American heart, has by degeneracy become the enemy of the Government, the mouthpiece of slavery and the would be apologist for treason if it dared.

Go through the scum of cities—find the desperado and outlaw in the frontier countries of this coast—hunt the dens of infamy everywhere, and there you find one universal clamor for "Democracy," and almost without exception votes that go for the usurping party that appropriate this once honored name. Through the whole country vice and ignorance, as a class voted for McClellan, who, whatever his shortcomings, deserved better of himself than to thus consent to become the subject of the sympathy and support of the outcast elements of all the land; for even the enemies of his country spoke well of him until the result of the election showed that with him it was no longer a question of "to be or not to be," since when, even among the editors of Richmond there have been "none so low to do him reverence."

With McClellan should have died "Democracy," for during the canvass, his name and reputation, poorly as it has been appreciated, was all that lent the party sufficient saving grace to command, as it did, the support of many men who would not willingly betray their country.

We do not naturally claim the aid of human outcasts to preserve the Union, or support the Union cause, but it is to the sober second thought of the intelligent minority of the Democratic party that we wish to address a friendly word. The election is over, the Union party has been more triumphant even than we expected, and our President is re-elected to fill the position he has honored in the past. "The voice of the people is the voice of God," and in the present case it is the voice of fate, prophetic in its tones, that assures you that the American people are against you; that the sympathy of civilized nations is against you. Read your own party traditions, study the words of eminent statesmen in the past and see if the verdict of history, past and present does not add a united voice against you. Vallandigham, Wood and their ilk are for you; the Confederacy have patted you all upon the back. Seymour has worked for you, and the conspirators who are banded to destroy the Government, all claim the name and swear by "Democracy." The election frauds attempted by the Democratic party of New York, the conspiracy discovered and exposed in the North West, are proved and exposed by confessions in each case of prominent Democrats, and "Democracy" adds to the crime originally intended, by false statements concerning the action of the Government in relation to these facts. The Democratic party has now become more utterly lost to truth, and falsifies through its journals every fact of State or National concern. Driven by defeat to political despair, and [illegible] hope for nothing if the Government succeeds in effecting the suppression of the rebellion, and can only expect success after the accomplishment of National ruin.

The rebellion is [illegible] towards its fall, the "last ditch" is near and [illegible] Grant, Sherman, Sheridan, Thomas lead [illegible] veterans in the field are dealing the last crushing blows to the despotism of Jefferson Davis. When the war is over where will the party be whose endeavor was to hamper not help the Government? When the Union is preserved by the united sentiment of the majority—by the Union armies in the field and Union statesmen in the Cabinet what political consideration can they claim who warred against the Government and not against the rebellion; who [illegible] the progress of Union arms without rejoicing at Union victories; who clamored in favor of "the Union as it was" while latterly was endeavoring to destroy the Nation?

Even the Southern rebel may in time be convinced that the cause in which he fought and in which his kinsmen fell was unrighteous and may be accepted and forgiven but the partisan Democrat who felt a sympathy with his country in its time of trial and only strove to build up a party upon the ruins of the National Union will have no claim for honorable mention. Their lot will be consigned upon the page of history to the contempt and execration of all good and virtuous generations that shall live to read its pages.

Newspaper Owyhee.—Mr J C Boone, one of the pioneers of Owyhee, lately arrived in town informs us that the two mills on Jordan Creek are still running and probably will keep in operation all winter. The Morning Star Mill is crushing Morning Star and Oro Fino rock with quite as good results as usual. The Oro Fino quartz is yielding even better than heretofore, while the Morning Star ledge had widened to six feet eleven inches of quartz all of which was being worked at the mill. Mincer's Mill was working on Oro Fino and Home Ticket with good success. Every ledge was yielding well. Whiskey Gulch rock had paid three hundred and eighty dollars per ton, a large well defined ledge that had been undervalued by many. Very rich rock was found in the "Ladd & Rudd" a ledge not much heard of until lately.

Mr Boone estimates that the next shipment of bullion from there will amount to near $100,000, the product of the Owyhee mines.

Silver City, one mile above Ruby City is taking the lead for business and importance and valuable lots there were held at near $1,000 each. War Eagle rock was proving quite rich and this ledge located on the summit of Oro Fino Mountain is now deemed one of the most important and valuable there. The Home Ticket on being worked is proving equal to its reputation, and the whole country is but waiting for spring to arrive to astonish the world by developing riches that these facts now but indicate.

We have also been shown by Mr D H Jackson, discoverer of the Silver Bullion lead in Owyhee two assays of quartz from that lode; one made at Ruby City shows gold, $1,373 24 silver, $24,471 83, showing a total of $25 841 07 per ton. One made by Messrs Tracy & King two days since, from a different character of ore, shows gold, $677 97 silver $7,377 51 making a total of $8 055 48 per ton. Mr J is making arrangements to secure a mill to work this ledge in the spring. This ledge lies half a mile back of Silver City, has been traced and developed for fifteen hundred feet, and has a width of five feet between well defined casings. The Silver Bullion Company was organized and incorporated in Owyhee as the laws of that Territory resemble our own corporation act.

Gilmore Hays, Auditor of that county is President, and John Cummins President of the Idaho Legislative Council, is its Secretary. Those who come from Owyhee speak well of this ledge as one of the most promising there showing out croppings of almost pure silver.

Oregon Reporter.—Under this title we receive the first number of the new Democratic organ at Jacksonville published and edited by P J Malone, Esq. The leader is a well worded salutatory, in which the editor professing Democracy to the core, seems to conclude that the American people have decided against him. He says the question being no longer of argument, but of "Horse, Foot and Artillery, the *Reporter* will have but little to say about politics." At the same time if the *Reporter* will fairly discuss the questions of the day, we hope to occasionally hear what it has to say, if only to comment on the progress of the "Horse, Foot and Artillery." Mr Malone was editor of the *Union* at the time that paper was suppressed at Corvallis by order of Government, has been a Democrat for some time and possesses a sharp enough pen, when he pleases to use it, though we have thought him at times unscrupulous in its use. No doubt he will succeed in the management of the paper quite as well as his predecessor would have done.

A Wreck at Siletz.—The following letter from the *Statesman*, explains the dispatch we received some days since, concerning a wreck reported off the coast by Indians.

Siletz Agency, Dec 21st, 1864.

Ed Statesman: A large brig named *Blanco* from San Francisco, was wrecked a few days since at the mouth of the Siletz river. I have just returned from an examination of the vessel. She is a total wreck—her masts are gone, her deck broken in, her hull split from deck to keel, and I fear her crew are all lost. I found some iron, both round and flat, still in her hull, and also a small lot of rope rigging. In addition to this I found some articles in possession of the Indians. The nails were directed to H H Lase Coos Bay.

Yours, &c., Ben Simpson.

What the Rebellion has Done for Missouri.—The *Trinity Journal* publishes the subjoined extract from a letter from Benj W Winston, dated Jefferson City, Nov 1st. Winston gives an account of Price's advance on that city, on the 7th of the previous month. Price advanced to within a mile of the town threw a few shells took a good look at the defensive works, and concluded that the chances were against him, and his 20 000 warriors left. Of the state of affairs in that locality he says:

"If we should have another raid here, I would not fence in the county to have it. Everything has been destroyed on the south side of the Missouri river. I don't think there is grain enough in the country to last the inhabitants three months. God knows what many of them will do this winter, for they have nothing to eat and no money to buy with."

Of the price current he says: "Corn is worth $6 a barrel—will be $12 in a short time; flour per hundred $6; potatoes $3 a bushel; butter $1 a pound and scarce at that."—*Calif*[illegible]

A Loyal Daughter.—The Paris correspondent of the New York *Herald*, writing October 30th says:

At a pleasant soiree a few evenings since at the American Consul's, I had the pleasure of meeting a brother of Pendleton, the Democratic candidate for Vice President of the United States. The Pendleton in Paris does not, I am happy to say, sympathize at all with the Copperhead peace at any price sentiments of the Pendleton of Ohio, and he says were he at home he should vote and work against him and them. There was also present in the same evening a daughter of Mrs Rose Greenow. This lady is married to Captain M[illegible], an officer in our army, and is as good a Unionist as her mother is a rebel.

Launch of the Del Norte.—The fine new ocean steamship was launched from the ship yard of Henry Owens at the Potrero this morning between 10 and 11 o'clock. The *Del Norte* is designed to run between this city and Crescent City and Humboldt. Following are her dimensions: Length of keel, 190 feet; breadth of beam 30 feet; depth of hold 17 feet; burthen 1 000 tons. [illegible] She was built by Henry Owens for the [illegible] line—work having been commenced about the 15th of May and is the first ocean steamer ever constructed on the Pacific coast. Her boilers were made by Coffee & Risdon. The engine which was in the *Republic*. The *Del Norte* is built in a staunch and thorough manner, and is a credit alike to its builder and to California industry and enterprise.—*Bulletin.*

Gen Sherman.—The California Pioneers recently elected this gallant officer an honorary member of their body and in response to a notification thereof he writes, under date of Kingston, Ga, Nov 8th, 1864 to Louis R Lull, Secretary of the Society:

"Dear Sir: The receipt this day, of your note of Oct 5th, communicating to me the resolution adopted Sept 5th, by the Society of California Pioneers affords me great personal satisfaction. If I am not in error I am still a full member of your society; yet I accept the honorary membership as additional and shall in future claim all the rights and privileges of that most honorable body.

I recall with exceeding pleasure my early adventures in that land of gold and think I learned during my wanderings over its plains and mountains, the lessons of patience and endurance which have enabled me to lead armies successfully in this war.

"I beg you will convey to the members of your society my grateful remembrance of their many acts of kindness and favor; and I beg that you will personally accept my thanks for the very handsome manner in which you have communicated their kind action. I am with great respect, your friend and obedient servant,

W T SHERMAN."

An Affecting Scene.—A correspondent of the Bangor *Whig*, in a letter dated from the Provost Marshal office at Houlton, thus describes an affecting scene that occurred in that office:

We have sent forward about sixty noble sons of Aroostook (for they have some noble specimens of manhood in this region.) One of these men is deserving of more than a passing notice. One of the noblest acts of this or any other draft occurred at this office yesterday. A young man with a small family and a young and devoted wife responded to the call of the Government, was examined and accepted, and while his papers were being made out a younger brother appeared and learning that his brother was accepted, pressed his way into the examining room, was accepted, and insisted on going as a substitute for his brother. Quite a scene ensued. The drafted man said he would go, and offered his brother $40 per month to stay at home and take care of his family and effects until his return, but the brother would not listen to it but go he would, and the two brothers stood in tears each insisting upon carrying his point. The noble boy at length prevailed and was duly accepted as his brother's substitute making the third son of the family now in the United States service—two being in the 1st Maine cavalry, and having already a noble record in their country's history. I shall watch with interest the name of Frederick M Haynes, of Fort Fairfield.

Belmont.—The correspondent of the *Bulletin* says the *Jewish Messenger* repudiates Belmont as a member of the Hebrew persuasion. It says Belmont is simply the New York correspondent of the house of Rothschilds, that though a Jew by birth he married out of the faith many years ago, is not now connected with a Jewish congregation and is universally repudiated as a Jew, that the Rothschilds have never assisted the rebel treasury to the extent of a dollar, that their sympathies and active co-operation have been with the government based on liberty as its principle, as stated by Baron Rothschilds to the United States Consul General at Frankfort Mr Murphy, and that the only banker of any note who upholds the Confederate cause in Europe is Mr Erlanger of Paris, who used to be a Jew but has converted to Christianity and recently married Mr Slidell's daughter. That is specific and satisfactory and should be circulated for the benefit of a religious sect, so many of whose members assume that it is disgraced by any Hebrew support to the rebellion.

Rebel Amusements.—A correspondent of the New York papers, writing from Newbern, N C, says:

Of late, Colonel Whitford of the Sixty seventh North Carolina (rebel) regiment has devoted himself from his system of glorious warfare, and now acts well the part of many of his fellow Southerners. This dastardly coward now engages his attention in pillaging and plundering the poor whites of his own native State under the plea of punishing disloyalty. He classes refugees at war with Yankees. Hence without hesitation he plants torpedoes in beaten road and paths traveled only by refugees and very seldom by Union troops. Our men have been engaged for a few days in their removal, during which period several were exploded. However no casualties of importance have yet been reported with the exception of the killing of a few horses and slightly wounding a few men.

Salvage against the Great Eastern.—In the case of Hamilton Fowler *vs* the *Great Eastern* steamship the United States District Court at New York has decided on a verdict for plaintiff of $15 000. The suit was to recover salvage for saving the ship on her first voyage to New York by rigging a temporary rudder in a severe storm in which the vessel was in great peril.

MEETING OF THE COMMON COUNCIL.—The regular weekly meeting of the Common Council was held at the Council Chamber at seven o'clock last evening.

Mayor Failing occupied the Chair.

The following members were present—Councilmen Cook, Frazar, Gradon, Gilmore, Hoffman, Robertson and Starr. Absent—Messrs. Bennett, and McCraken.

The records of the Council having been loaned the reading of the minutes of the last meeting, on motion was postponed.

A petition to have the foot of Oak street graded so as to be a convenient place for flat boats and other light crafts to unload, was referred to the committee on landings and wharves.

A petition relating to altering of grades of certain streets on Couch's addition was referred to the committee on streets and public property.

The committee on fire and water recommended that the fixtures for water, gas, etc., for No. 3's engine house be attached to the same, and, on motion, the work was authorized to be done.

The judiciary committee reported an ordinance defining the duties of the Auditor and Clerk, and fixing his salary. The ordinance was read first and second times and further action postponed.

A report from the City Treasurer was read and placed on file.

The report of the Collector was read and adopted.

The claim of John H. Fery, amounting to $946 50, as per contract for constructing sewers, paid. The claim of E. M. Barton of $2,000, due on contract for No. 3's engine house, was paid. On motion of Mr. Gradon all other claims against the city was laid on the table.

The Auditor reported as instructed in relation to the present indebtedness of the city, the claims credited amounting to $5,100 89. The report was placed on file.

An ordinance appropriating $17,000 to pay the indebtedness of the city, was referred to the committee on judiciary.

An ordinance fixing the bonds of the city treasurer, and defining his salary was read and referred to the committee on ways and means.

An ordinance defining what time taxes shall be paid was read the second time by title.

An ordinance defining the duties of the City Attorney and fixing his salary was taken up and read 3d time and passed.

Councilman Starr offered a resolution authorizing the City Treasurer to sell for gold and silver coin all the currency now on hand at the highest market value, which passed.

On motion of Mr. Cook, the Auditor was instructed to give notice in the daily paper that from and after this date all parties requiring licenses must apply to the Auditor.

On motion, Council adjourned.

MOUNT ST. HELENS.—This magnificent "snow cap" loomed up in all its glory yesterday morning—and in fact the whole range looked whiter than we have seen for a year before, in the rays of the sun which promised us a clear day. The Mount alluded to, although insignificantly considered by the side of Mount Hood, has a symmetry that is incomparable to the rest, and its lofty precipice on the south-west side, which is so prominent as to never be covered with snow on the wall, is the subject of comment often. Once a person unacquainted with the mystery of the "spec" discovered it in a day like half of yesterday, and created an immense "sensation" by relating that a party were to be seen ascending the Mount, and as their position did not change for several days the populace thought them "snowed in." An old Webfoot dispelled all fears of that kind, however, by relating the cause of the dread, and the "party" has never changed its base since.

CULVERT IMPROVEMENT.—The dangerous place on Front street, in the vicinity of the Penitentiary, made so by the condemned bridge across the deep gorge at the junction of Harrison street, is being improved by setting in a culvert, and filling up the gorge, a depth of about thirty feet, to the survey, or grade of the street. The improvement is a very desirable one, but it strikes us the culvert, which is being made of plank, is not calculated for any degree of permanence. The natural gulch would make a very excellent sewer in time, for the south west portion of the city, which is the receptacle of much water from the adjoining hill sides in the winter season, but it requires an acqueduct of considerable dimensions to carry it off. The Macadamized Road Company, at their crossing just below the culvert now in construction have a stone one of some larger proportion under their road embankment.

A SURPRISE.—We are indebted to the amiable and pi-ous members of the craft belonging to the *Farmer Office*, for one of the *fattest takes* we have *set up* this long while. Summoned last evening by sounds of jubilee and special invitations, we went into their department, and found that their supplies of cake and real Los Angeles vintage were abundant. We found them *Well(ow)ing* in rich jelly cake, and sluicing it down their throats with the juice of California grapes. True they didn't *Waite* for us, but as they don't *Daly* have such jobs as that on hand, we didn't wait for them. They were singing beautiful *Balla(r)ds* when we went past later in the evening, varying from *John Bull* to old John Brown, not sung according to *Clark's* grammar and that might have been taken from *Bennett's* Herald. The fact they had been a long time *in quod*, but having lately been *paid off* they concluded to pay off the rest of us, though they appear to have got badly sold in doing it.

FIXING OVER MAN TRAPS.—We don't wish to be considered as given to "grumbling," but possibly we are. Nevertheless, we wish to see people who permit "man traps" to remain yawning on their premises held accountable for every accident that may occur to the unfortunate individual who runs into them. We alluded briefly at times before this to the "traps" set on Fourth street at the grading of the new Court House block, and in that vicinity, but they have never been fixed up until yesterday, although a dozen or more men have tumbled headlong over the bank into the mud. The worst place in the city, and one that may have proved the death, by drowning, of many men for what we know, is that on the wharf between the foot of Alder and Morrison streets. To our certain knowledge three men have run narrow chances for life at this spot, and it is time someone should board it up.

ACCIDENT TO THE HUNT.—The steamer *Wilson G. Hunt*, Capt. Wolfe, met with an accident near Vancouver yesterday while on the way from this city to the Cascades, which disabled her so much that she could not proceed any farther, and the steamer *Julia* was telegraphed for to take the passengers and freight on to the Cascades. This accounts for the delay in the arrival of the Express from Dalles last evening. The O. S. N. Company have been very fortunate in the running of their line, and have fewer accidents to record than large corporations generally, which is mainly owing to their careful management, and employing of competent officers. The accident yesterday was occasioned by coming in contact with a snag in the Columbia, which was unavoidable from the obscurity occasioned by fog.

TREASURE BY THE STEAMSHIP.—The steamship *Oregon*, which sailed for San Francisco last evening, carried $113,500 in treasure shipped by parties as follows:

Wells, Fargo & Co	$95,000
Ladd & Tilton	12,000
Other parties	6,500
Total	$113,500

This is a light shipment, but when it is considered that the entire upper country is almost closed by winter from work, and communication with us, it is some wonder that we can make three manifests a month even so large as that.

WILLAMETTE THEATRE.—The audience at this place of amusement last evening, was equally as large as upon most occasions. The occasion was the benefit of Miss Sue Robinson, now Mrs. C. Getzler. Miss Robinson in former years has been an especial favorite with the Portland public, and her appearance last night somewhat revived old memories. Her rendition of *Viola* in the "Life of an Actress" was well executed, and the frequent rounds of applause was the best test of appreciation that we can allude to. Her favorite dance was handsomely performed, although she bore evidence of fatigue at the commencement.

THE PACIFIC MONTHLY AND ITS MANAGEMENT. The *Pacific Monthly*, published at San Francisco, and edited by Miss Lisle Lester, is the only Magazine printed on this coast, and from the appearance of the few numbers we have received we can recommend the work to our citizens. Miss Lester, who has been in this State for some time, has procured several views of Oregon scenery, with which it is contemplated to illustrate the present volume. The engravings are made in New York, and each alternate number will contain a plate illustration worth more than the subscription price. The Editress will give a dramatic reading at Oregon City this evening. On Monday, by special invitation, she is to visit Vancouver, and will read in the evening there, probably at Metropolis Hall, on which occasion legal tenders will be taken at par from officers, soldiers, and others in the service of the government. This city will be canvassed on Tuesday and Wednesday for the procuring of subscribers to the magazine, and we trust the fair manager may meet with success.

EIGHTH OF JANUARY BALL.—The officers at Fort Vancouver are to give a ball on Monday evening next, in commemoration of the battle of New Orleans, on the 8th of January, 1815. The fine steamer *Fannie Troup*, which plies between this city and Vancouver, has made arrangements to leave here on that day at 4.30 p. m., and will return immediately after the party is over, for the convenience of those of our citizens who may wish to attend.

PICTORIALS, MAGAZINES, ETC.—It is a long time since an opportunity was afforded us to refer to the stock of excellent periodicals and magazines of our neighbor S. J. McCormick of the Franklin Book Store, but his desirable lot, received per steamship *Oregon*, deserves mention. The assortment comprises Illustrated, and every description of newspapers, and Magazines of all title. Those who desire to *see* the *World*, and read its contents are recommended to buy of McCormick.

"A Slight Cold," Coughs.—Few are aware of the importance of checking a Cough or "SLIGHT COLD" in its first stage, that which in the beginning would yield to a mild remedy, if neglected, soon attacks the lungs.—"*Brown's Bronchial Troches*" gives sure and almost immediate relief. *Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.*

LE DOYEN'S
SARSAPARILLA, YELLOW DOCK
—AND—
IODINE ALTERATIVE
FOR THE
CONSTITUTION.
CLEANSE THE BLOOD.
WITH corrupt, disordered or vitiated Blood you must be sick all over. It may burst out in pimples or sores, or in some active disease, or it may merely keep you listless, depressed and good for nothing. But you cannot have good health while your blood is impure. Sarsaparilla purges out these impurities and stimulates the organs of life into vigorous action, restoring the health and expelling disease. Hence it rapidly cures a variety of complaints which are caused by impurities of the blood, such as Scrofula or King's Evil, Tumors, Ulcers, Sores, Eruptions, Pimples, Blotches, Boils, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, Cancer or Cancerous Tumors, Sore Eyes, Female Diseases, such as Retention, Irregularity, Suppression, Whites, Sterility, Syphilis or Venereal Diseases, Liver Complaints and Heart Diseases.
Blood and Liver.
This valuable Medicine is now available to the public for the cure of
SCROFULA, CONSUMPTION, RHEUMATISM, CANCER, HEART, LIVER AND KIDNEY DISEASES, NEURALGIA, NERVOUS AFFECTIONS, BRONCHITIS, DYSPEPSIA, &c.
AS A TONIC,
its operations are evinced by strengthening the digestive organs and increasing the appetite. In cases of Dyspepsia, Emaciation and Debility, an increased nutrition of the body is the result of the employment of Iodine. The patient recovers flesh, strength and color; hitherto pale, relaxed and feeble, he becomes full, strong and florid.
Are you sick, feeble and complaining? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping over you, and should be averted by a timely use of the right remedy. Take Le Doyen's Sarsaparilla, and cleanse out the disordered system—purify the blood, and let the fluids move on unobstructed in health again.
AS A LITHONTRIPTIC,
it has no equal, being chemically combined with Iodine. It possesses in a high degree the power of dissolving Stone in the Bladder, and gravel of the kidneys, preventing gravel formation and enlargement of the prostrate glands, irritation of the neck of the bladder, urinary, etc.

A Greenback Case!
HAVING BEEN COMPELLED TO ACCEPT OF Legal Tender Notes at par since the 17th day of December, 1862, for the rent of my handsome Brick Store, corner of Morrison and Front streets, I feel compelled to announce for the benefit of the public at large, that
Jacob Mayer
Leased the building of me on the 17th day of February, 1862, for a term of years, at which time there was no such currency in vogue, and it was understood the terms were CASH. Since the date above stated I have received the depreciated currency regularly, under protest for the rent of the
CITY OF PARIS STORE,
Making less than two-fifths of the real amount said Mayer was to pay. He had secured the building at very advantageous rates, and even were he now to comply with his contract, and pay in COIN, would be getting the best bargain in the city. I make this statement to show the public what kind of a man he must be to take such undue advantage of the times to convert a few dollars to himself by LEGAL SWINDLING. The public can readily see what it costs to have such tenants. G. W. VAUGHN.

PARTICULARS OF THE DISASTER TO THE FLORIDA IN HAMPTON ROADS.—The following is from the Fortress Monroe correspondence of the N. Y. Herald:

On the 18th of November the Florida, then lying at anchor in Hampton Roads, was ordered by the Navy Department to be taken up the James river and anchored [illegible] off Newport News. She was commanded by Acting-Master [illegible], who had a crew of ten men and [illegible] officers, Third Assistant Engineer [illegible], Ensign and [illegible].

On the [illegible] the [illegible] went to Norfolk to coal, and [illegible] run into by the transport [illegible] seriously damaged. The transport [illegible] her bow, knocking off her [illegible] and thereby injuring her. She was in a very [illegible] when captured, and all the time since her arrival here she has leaked so badly as to keep the steam pump engaged continually. The collision with the Atlanta greatly increased the volume of water which continually poured in, the engines having to fill at the rate of eight [illegible] per hour. On the arrival of the [illegible] at Newport News an additional pump was secured [illegible] and the two were kept uninterruptedly at work. The position of the vessel was about half a mile from the shore and three quarters of a mile below the Atlanta. Here she [illegible] the 20th. A very strict watch was kept day and night, as it was supposed that [illegible] might be taken by the rebels to attempt her destruction from the shore.

About 9 o'clock on Saturday evening (Nov. 27) one of the pumps on board suddenly gave out, throwing an additional burden upon the remaining one, though the water was [illegible] apparently kept down as before. At 12 o'clock Mr. Baker inspected the pumps and observed that the water was not then gaining. [illegible] afterwards the engineer in charge reported to him that he could not keep the vessel free, and that the water was gaining constantly. The commander immediately called all hands, the deck pumps were rigged, and they commenced bailing actively. The Atlanta was [illegible] with all delay, and two boats were hurried [illegible] to the aid of the sinking vessel. Before they had arrived, however, the water had risen considerably in the fire-room, so that it was found necessary to put the fires out. The pumping engine was thus stopped, and the water kept pouring in at a fearful rate. It was impossible at any time after it was found that the ill-fated ship was sinking, to move her toward the shore, as there was but seven pounds pressure of steam—just sufficient to work the pumps. Neither were there any means at hand for towing her ashore. From the fact that the boilers of the Florida were constructed for burning soft coal and there was only hard coal on board, it took, under any circumstances, a long time to get up sufficient steam to work her engines.

In a few minutes after sending the two boats to the Florida, Capt. Woodward of the Atlanta came himself on board to see what could be done to keep her afloat. But it was apparent that she must sink, and the men were ordered to save their effects and prepare to leave her to her fate. The Florida kept rapidly filling so that at seven o'clock the water was a foot above the berth deck.

At the time that Mr. Baker signalled the Atlanta, he sent a telegraphic dispatch to Admiral Porter at this place, that the Florida was sinking. The Admiral immediately ordered the tug Page to steam up to the Florida, and tow her into shoal water toward the shore. The tug came along at 7 15, but the Florida was by this time so near sinking that it was deemed dangerous to attach it, as in going down she would take the tug along with her. A few minutes after, with eight feet of water in her she careened over and disappeared stern foremost. Mr. Baker and Capt. Woodward remained alongside in the tug until she went under.

The Florida had all her guns, and everything on board just as when she was captured. The cause of her sinking is considered undoubtedly to be the collision with the transport steamer, and it is supposed that the Government will call upon the owner of that vessel for damage.

REBEL PAPER.—We have been shown a specimen of rebel literature in a copy of the Richmond Examiner, sent by an Oregonian in the army before Richmond to his brother in this place. It was no great curiosity from the fact of its great similarity to the "democratic" papers in this State. It is not printed on as good paper as some of these, but it is conducted with more ability, argues with more fairness, deals in less falsehood and misrepresentation and speaks with more respect of the President and Government of the United States. It professes to be democratic, but carries its hatred of Yankee customs so far that it spells the word thus: "democratick." This is the only difference we can detect between its "democracy" and that of its cotemporaries on the Pacific coast.

The subscription price for the daily is fifty dollars; for the weekly fifteen dollars. This is in rebel shinplasters, which not being worth more than ten cents on the dollar, would make the real price five dollars for the daily and one dollar and a half for the weekly. We would advise our democratic friends to stop their third rate organs published in this State and send to Richmond for an abler, a cheaper and more truthful exponent of their principles.—Statesman.

JOLLY AND EARNEST.—An enthusiastic subscriber, whose good will we fully appreciate, says:

MR. EDITOR.—Enclosed please find the sum of three dollars, the price of the OREGONIAN for one year. I received your circular calling for that amount by the first of January or my paper would be discontinued, and owing to our mails only going once in two weeks this will not get there in time, but you must send me the OREGONIAN, for I cannot do without it. All my relations are copperheads and I could not stand them half a fight without it, with it I am enough for them all. I expected my paper would stop when my subscription expired. I would have sent you the money then, but I did not have it, and this is the first I have got since, and now I send for the paper and let my wife go nearly barefoot for [illegible] says she would rather have the OREGONIAN than a new pair. Now Mr. Editor, if you have the patience to read all this letter, and understand all the Josh Billings in it, why I [illegible] for you.

LARGE AMOUNT OF PRIZE MONEY PAID OVER FROM BOSTON.—We learn from the Boston Traveller that from the 1st of June 1863 to the present time, a period of between 15 and 16 months, the U. S. Marshal Keyes has paid over to the United States Treasurer, as the proceeds of captured blockade runners adjudicated at that port, over $5,000,000. In these prize cases the expenses were very small, thus materially increasing the amount to be distributed. In no case a single blockade runner netted with the cargo upwards of $300,000. There are now but very few unsettled prize cases to be disposed of, as Marshal Keyes transacts his business with great promptitude.

THE VALUE OF AMERICAN GREENBACKS.—The question—What is the English value of the paper dollar? was again in [illegible] on the 2d at the Liverpool Police Court, when a man [illegible] Washonski summoned the captain of the British ship Conflict for £22 [illegible] alleged to be due him for wages. Washonski had shipped at New York at $45 a month. The defendant contended that the complainant was entitled to the money at the New York value at the time of the agreement, when gold was at 100 per cent premium. The articles not having been signed in the presence of the consul could not be received in evidence, and the magistrates decided that the amount should be paid in full value.—[illegible]

Colonel Berdan's new rifle was tried near Utica, New York, recently. The distance was 1200 yards, with target six feet in diameter, of regulation size. Colonel Berdan accomplished what is ascertained to be the best shooting [illegible]. Soon after the trial commenced he hit the bull's eye four times in succession, then missed it by a trifle the fifth, and hit [illegible] the sixth.

Private letters from New Orleans received in New York by the last steamer state that the immense quantities of cotton [illegible] the interior of Texas, and which Banks failed to reach last spring, is rapidly being sent over the border into Mexico, where it is being bought up by the American and European speculators at comparatively small figures.

During the late storms in Nova Scotia a man lost his way in the night and became benumbed with cold. A Newfoundland dog in his company preserved his life by lying on him and biting him to keep him awake when he became drowsy from the effects of cold.
